

AHC21616 Certificate II in Landscaping

This qualification is part of the Horticulture Training Package. This qualification underpins a range of work functions & job roles that can lead to a horticultural Landscaping qualification.

Job titles may include: **Landscape labourer, landscape trades assistant**

What is it going to do for me?

It provides students with the skills & knowledge needed to work under supervision as a skilled operator or assistant to a tradesperson in the horticulture industry. Students complete a range of general horticulture modules & may choose electives from a range of industry specific modules. Depending on the units chosen, you will be able to:

- operate equipment & machinery
- construct horticultural features
- apply chemicals & biological agents
- maintain irrigation & drainage systems
- recognise plants, products & treatments
- maintain properties & structures
- treat weeds, pests & diseases

How long is it going to take?

As a student who is not studying under a Contract of Training as a trainee the learning is self-paced, so the length of time to complete the qualification is dependent on your current skills and capacity to commit time to your studies. The learning and assessment time of this qualification for a non-traineeship is 1200 hours over a 1 year period. As a Trainee (studied under a Contract of Training) this qualification must be completed within your traineeship period of 12 months (1 year).

The length of study may be lessened where you can evidence relevant current competency for skills and knowledge. This may go towards recognition of prior learning (RPL) resulting in credit for one or more units of competency. ARO can provide assistance with the RPL process. Please contact our office and/or indicate your desire for RPL on the enrolment form.

How is the qualification delivered?

Traineeship: If you are currently employed in Horticulture and your employer agrees to a traineeship relationship ARO will provide a combination of training modes. Trainers and Assessors will conduct training and verification of competencies achieved through on-job training (provided by your employer) at your workplace; you are provided a workbook to complete for each unit of competency and additional off-job training will be provided to help you achieve your qualification.

Non-Traineeship: If you are not currently employed in Horticulture, ARO delivers the qualification completely off-job or ARO may be able to assist you to gain a traineeship. Please note ARO does not guarantee placement in traineeships.

What does the course contain?

- Fifteen (15) units are required to be completed (comprised of 8 core units and 7 elective units).

Elective Units

- a minimum of four (4) units must be selected from the elective unit list
- a maximum of three (3) units may be selected from units aligned to Certificate II or III in AHC10 or from any other currently endorsed training package or accredited course. Selected units must be relevant to job outcomes relevant to landscaping

As a general guideline we have the following suggestion of units, if you wish to choose alternative elective units please speak to ARO upon enrolling.

CORE	
AHCWHS201	Participate in work health and safety processes
