Give yourself a better chance to gain knowledge in the important industries of horticulture, production horticulture, landscaping, sports turf, agriculture, conservation and land management

Our trainer, Mr. Noel Johnston, has a long career of education in the field of commercial irrigation. He will instruct you in the understanding of SA soils; improving irrigation systems; soil conditioning; and pest control. The course is directed at those in the field that need to learn more to protect their future businesses in these changing weather patterns.

This is a nationally accredited qualification.

Units offered in this course are:

- AHCDRG301 Install drainage systems
- AHCDRG303 Troubleshoot drainage systems
